## Full Stack Software Engineer

Full stack software engineer who enjoys solving problems using code and delivering beautiful products that amaze my clients. I have always prioritized efficiency not only in my code but also my work in general. I have found solutions for previous employers that saved dozens of man-hours per month. I am fascinated by AI, machine learning, and automation.

## Core Qualifications

- WordPress Expert
- Responsive Design, Bootstrap
- Proficient in HTML5 and CSS3 (Sass)
- Fluent in JavaScript (OOP), jQuery
- Intermediate PHP, Ruby/Rails, Python
- Git (CLI & GUI), Grunt, AWS, Heroku
- Well experienced with LAMP stack
- MySQL, NoSQL, Relational Databases, API Integrations, REST
- NodeJS, Angular, React, Django

## Technical Skills

<b>Languages:</b>	Python, JavaScript, PHP, Ruby, HTML5, CSS3, Perl
<b>Frameworks:</b>	Flask, Rails, Angular, Express, WordPress
<b>Libraries:</b>	Bootstrap, jQuery, Normalize
<b>Testing:</b>	Rspec, Jasmine, PHPUnit
<b>Databases:</b>	SQL, NoSQL, MongoDB, Relational Databases
<b>Server-side:</b>	NodeJS, HTTP, Apache, SSH, DNS, DHCP, FTP, DevOps, CLI, LAMP, AWS, Heroku
<b>Operating Systems:</b>	Windows, Linux (Ubuntu), Mac OS, VM
<b>Other Tech:</b>	Regex, Git, Sass/Scss, HAML, ERB, EJS, JetBrains, Adobe Creative Suite

## Professional Experience

### Full Stack Web Developer

**Farrow Commercial (contractor)**  
**Firefly Creative Company (contractor)**

**01/2016 to 5/2016**  
**08/2016 to Present**  
Santa Rosa, CA

Work with several agencies as an independent contractor building custom WordPress sites using responsive design. I also create web applications using Python, Flask, JavaScript, Node, Angular, and Express (as well as many others).

### Senior Web Developer, PHP Programmer

**OptiRev, LLC**

**01/2015 to 01/2016**  
Santa Rosa, CA

Created project timelines, developed workflows, trained developers, managed small team, developed custom responsive WordPress templates, developed WordPress plugins, and helped develop businesses in the hospitality and winery industries. I used WordPress, JavaScript, HTML, CSS, Drupal, Joomla.

### SEO / Web Developer

**PBHS**

**02/2012 to 02/2015**  
Santa Rosa, CA

Developed websites and custom SEO campaigns for clients in the dental industry. Created custom JavaScript scripting solutions to save up to 40 man-hours per month to my department. I used WordPress, JavaScript, Angular, Bootstrap, CSS, HTML.

## Past Education

### Full Stack Software Engineer Bootcamp

Santa Rosa Junior College

Santa Rosa, CA

2011

## Side Projects

<u>Project Name</u>	<u>Technology Used</u>	<u>Year</u>	<u>Description</u>
Portfolio	JavaScript, Node.js, Express, Angular	2016	I rebuilt my portfolio site using the MEAN stack.
ChatRoom	JavaScript, Node.js, Express, Socket.io	2016	I built a simple chat application using a Node.js backend. I deployed on Heroku. <a href="https://chaosrock-chatroom.herokuapp.com">https://chaosrock-chatroom.herokuapp.com</a>
Ridr	Python, Flask, Pylot	2016	I was part of a team that built a ridesharing app using HTML5, JavaScript, with a Python/Flask backend. We deployed on AWS. <a href="http://carmarider.com">http://carmarider.com</a>
FotoGram	Ruby, Ruby on Rails	2016	I built a clone of Instagram. I did this project to build a basic CRUD app.
Various Browser Games	JavaScript	2013 to 2016	I built various incremental games to test my ability in JavaScript Programming. <a href="http://norcadesign.com/games/Clicking%20Spree">http://norcadesign.com/games/Clicking%20Spree</a>
SEO Report Generator	JavaScript	2013-2014	I built a client-side application to speed up the process of generating reports for SEO clients. <a href="http://norcadesign.com/projects/SEO/seo-report-builder">http://norcadesign.com/projects/SEO/seo-report-builder</a>
JavaScript Bookmarks	JavaScript	2013-2015	I relegated tedious and/or redundant tasks to JavaScript such as filling out forms on Google Analytics with static information. <a href="http://norcadesign.com/projects/SEO/bookmarks">http://norcadesign.com/projects/SEO/bookmarks</a> <a href="http://norcadesign.com/projects/SEO/index.php">http://norcadesign.com/projects/SEO/index.php</a>
